

AbilityOne & Virginia Industries for the Blind

The AbilityOne® Program is a Presidential Commission whose mission is to provide employment opportunities for people who are blind or have significant disabilities in the manufacture and delivery of products and services to the federal government.

It is a mandatory source of supply, with any procurement method and at any dollar value, in compliance with the Javits-Wagner-O'Day Act, (41 U.S.C. §46-48c). The AbilityOne Program's mandatory status remains in effect for all purchases--including those under the micro-purchase threshold.

41 CFR § 51–1.2 Mandatory source priorities.

The JWOD Act (AbilityOne®) mandates that commodities or services on the Procurement List required by Government entities be procured, as prescribed in this regulation, from a nonprofit agency employing persons who are blind or have other severe disabilities, at a price established by the Committee, if that commodity or service is available within the normal period required by that Government entity. Except as provided in paragraph (b) of this section, the JWOD Act (AbilityOne) has priority, under the provisions of 41 U.S.C. 48, over any other supplier of the Government’s requirements for commodities and services on the Committee’s Procurement List.

Procurement List

A list of products and services maintained by the Committee for Purchase placed in the AbilityOne® Program, as referenced in FAR Subparts 8.0 and 8.7. Once a product or service is on the Procurement List, the Government must buy it from the organization designated by the Commission until the government no longer has requirements for that item, or until a nonprofit agency employing people who are blind or have significant disabilities can no longer furnish that item.

Base Supply Center(s) BSC

The BSC’s are added to the Commission’s Procurement List as AbilityOne service projects in accordance with 41 CFR Chapter 51, and, as such, are authorized distribution sources for AbilityOne products and commercial (non-AbilityOne) products.
